SWINT JAILED FOR KILLING.

He Claims that He Killed Matthews In Self-Defense.

Waynesboro, Ga., March 8.—James Swint is in jail here charged with the killing of Arch Matthews, both of whom live near St. Clair, in Burke county. News of the killing reached the city on Wednesday, but no particulars could be learned.

Sheriff Johnston immediately started for the scene of the tragedy, but was met about 8 miles from the city by Swint, who was in charge of Constable W. T. Moody on his way to give up.

The killing occurred near St. Clair, and the facts, as we learn them, are that Matthews was advancing upon Swint with an iron pin, when Swint fired four or five times, killing Matthews. When seen at the jail, Swint stated that he did not think it necessary to make any statement. He was in the same cell with Tom Moore, who is charged with the murder of his brother, which occurred in or near the same community.

Swint seemed under a nervous strain, but was smoking and listening to the strains of music from a graphophone which Moore was operating. The preliminary trial will take place before Magistrate E. S. Garlick.

Matthews, the dead man, was 45 years old, married and a prominent Mason and Woodman. Swint is a young man between 27 and 30 years of age.

Was Waylaid and Murdered.

Ashburn, Ga., March 8.—G. W. May, a prominent and wealthy citizen of this county was waylaid and killed near his home. A negro whom Mr. May had employed the day before, is suspected of the murder, and the sheriff and a posse are now in search of him. The body of Mr. May was discovered Wednesday. It had been dragged from the roadway and concealed in the bushes. This was within 200 yeards of his home. The body showed that he had been struck on the head with an ax. Mr. May had been to this place and drawn $150 from the bank. It is presumed that the negro was aware that the money was on Mr. May's person. The pockets had been rifled when the body was found.

100 Bales of Cotton Burned.

Raleigh, N. C., March 8.—The freight station at Youngsville, N. C., together with two loaded cars and 100 bales of cotton on the platform adjoining the station, were destroyed by fire that broke out after midnight. A message was sent to this city for aid from the fire department, but before a special train could be sent out, the fire was under control. The loss is probably $20,000. The cotton was the property of Percy & Patterson, but was placed on the platform for shipment, so the loss will fall on the Seaboard Air Line railway.

Will Arbitrate Dispute.

Louisville, Ky., March 8.—The local union of street railway employees early Thursday morning decided to present the entire question of the matters in dispute between the Louisville street railway and its employees to President Minary, of the railway company for arbitration. It was unanimously voted that if the company refused to sign the articles of agreement, a strike would be called. The railway officials have up to this time, declined to grant any of the demands of the men for better wages and shorter hours.

Two Murders Near Sibley.

Cordele, Ga., March 8.—The community of Sibley, just over the line of Turner county, 13 miles south of Cordele, is in a state of great excitement. Monday evening a negro shot and instantly killed J. T. Joiner, a prominent farmer of that settlement and words comes that George Maye, another prominent farmer, has been slain by another negro, the weapon used being an ax. No particulars can be had only that both negroes are still at large.

Snsational Homicide Case In Virginia Comes to an End, When the Jury Finds the Strother Brothers Not Guilty of Murder.

Culpepper, Va., March 8.—After being out an hour and a half, the jury in the case of James and Philip Strother, on trial for the murder of William F. Bywaters, returned a verdict of not guilty at 11:10 o'clock Thursday morning.

All Culpepper awaited with a feverish interest, the verdict in the Strother homicide case.

In anticipation of an early verdict, groups of friends of the Strother boys

and of Bywaters gathered in front of the little court house eagerly discussing the probability of convicition or acquittal.

Both of the accused men appeared in the court room in advance of the jury. They appeared refreshed after a night's rest, though both brothers showed evidences of anxiety over the outcome of their case.

Robbers Secured $20,000.

Moscow, March 8.—A daring holdup occurred at the university here on Thursday. While the officials were being paid off in the chancellories, seven armed men entered, threatend all present with pistols and demanded the money. The intruders then fired in the air, seized $20,000, and decamped, killing a sergeant of police whom they met at the door as he was about to enter the building. The university building is now surrounded by police and all the houses in the vicinity are being searched.

Cause of Death Unknown.

St. Louis, March 8.—Beyond a cablegram announcing the sudden death of Miss Cornelia Fitzgerald, at Panang, Malayasia, no additional word concerning the cause of her death has been received. Bishop J. N. Fitzgerald, accompanied by his wife, two daughters and a son, departed from St. Louis last December on a trip around the world. The deceased was the elder daughter. It is probable the body will be brought home to St. Louis for burial.

Signor Callo Dead.

Rome, March 8.—Signor Gallo, minister of justice, died Thursday morning of syncope. He was born in 1849 and formerly was minister of public instruction, president of the chamber of deputies and minister of public instruction. Signor Massimini, the minister of finance, who was stricken with apoplexy Wednesday is said to be in a dying condition.

MONEY SENT TO NEW SCHOOLS.

First Distribution Is Made of Fund Arising from Fertilizer Inspection.

Atlanta, March 8.—Governor Terrell has sent out to nine of the new district agricultural schools their first installment of the fund arising from the inspection of fertilizers, this fund having been especially appropriated for their maintenance and support by the legislature.

Governor Terrell sent $2,000 to each of the treasurer sof the nine schools, whose bonds have been filed and approved. No remittance was made to the ninth district, on account of the fact that organization has only just been completed, nor to the tenth district, because it was found necessary first to correct a little informality in the bond.

A second installment of a little more than $2,000 will be sent to each of these schools later in the year, and this will give them something over $1,000 the first year. This money will be used principally for furnishing the buildings.

If the legislature will omit the clause from several small appropriations in the general appropriations bill, which requires that they be paid out of the general fund, this will result in giving the new agricultural schools a large amount for maintenance next year, and each of the 11 schools will have about $6,000 from this fund is to go to the agricultural schools, and it will no doubt see that it does so.

Shot a Hotel Proprietor.

Buffalo, N. Y., March 8.—Two unknown men called at Alexander Young's Half-Way House in Ebenezer early Thursday morning and when the proprietor came to the door, one of the men opened fire on him with a revolver. One of the shots took effect in Young's side and he sank to the floor. The men ran away in the darkness. Mr. Young, it is said, was still alive, but all communication with him by telephone is cut off. The police have taken charge of the case. One of the women in the house, believed to be Mrs. Young, is unconscious from the shock she suffered. This is the second attempt that has been made on the life of Mr. Young within a year.

Acquires Control of M. & M. T. Co.

Boston, March 8.—The New York, New Haven and Hartford railroad has acquired control of the Merchants and Miners Transportation company, which operates lines of steamers between Atlantic coast points from Baton Rouge to Savannah, Ga., according to a statement made by Mayor John F. Fitzgerald, of Boston. Mayor Fitzgerald said that this information came out at the conference held here between th Mayor and Charles S. Millen, president of the New Haven road, concerning the transaction between the New Haven road anr Chas. W. Morse, of New York, for the purchase of the Sound lines controlled by the railroad.

Death Causes Delay in Trial.

New York, March 8.— A death in Justice Fitzgerald's family has postponed the sessions of the Thaw trial a day, and the court did not sit on Thursday. On Friday, when court reconvenes, the defense will cal two more alienists, probably Dr. Graleme M. Hammond and Dr. Smith E. Jelliffe, who have been in the court room practically every day since the trial began. Before court adjourned on Wednesday, Mr. Delmas stated that there would be but two more witnesses called.

Important Decision Handed Down.

St. Louis, March 8.—Decision was handed down in the United States circuit court Thursday sustaining the order of service out of the United States circuit court against the Standard Oil company, and over 50 other non-resident corporations and individuals, co-defendants with the Waters-Pierce Oil company, in the suit filed by the government at the instance of President Roosevelt.

Remains of Former Chief Justice Reach Atlanta and Lie in State in Supreme Court Chamber of Georgia Capitol.

Atlanta, March 8.—The remains of Judge Logan E. Bleckley, distinguished jurist and author, whose death occurred at his home in the little town of Clarkesville, Ga., arrived in Atlanta Wednesday night over the Southern railroad, accompanied by the members of the immediate family.

The casket was carried at once to the residence of his son-in-law, Hubert L. Culberson, at 363 Gordon street, and was removed at 10 o'clock Thursday morning to the state capitol, where the remains lay in state until 3:30 in the afternoon, when the funeral services were conducted.

Throughout the morning long lines of sorrowing people poured through the capitol corridors for the purpose of looking for the last time upon the features of the first citizen of the state, whose death has cast a gloom over the entire commonwealth.

Brief but impressive services were held at 3:30 o'clock in the supreme court chamber, Rev. J. W. Lee, of Trinity, officiating, after which the remains were laid to rest in the family lot at Oakland cemetery. Alex Smith had charge of the music.

The active pallbearers were Luther Z. Rosser, Charles T. Hopkins, Robert C. Alston, John M. Slaton, H. C. Peeples, T. A. Hammond, John D. Little and Reuben R. Arnold.

Hundreds of leading citizens composed the honorary escort.

National Bank for Barnesville.

Barnesville, Ga., March 8.—The officers of the First National bank here have just received notice from the secretar yof the treasury at the City of Washington, D. C., that he has designated this bank a depository for the government. This is considered quite a compliment to the bank and to the city as well, as it is quite a rare thing for the government to designate a depository in a little city, as small as Barnesville. Not all of the larger cities are so fortunate as there are only three or four in the state north of Macon, these being in cities several times larger than Barnesville. The bank represents considerable wealth and is a strong institution.

Chorus Singer Becomes Insane.

Berlin, March 8.—Eugene Kupke, a chorus singer, of the Royal Opera, became suddenly demented at a concert given in the Palace theater and at which the ambassadors and the most distinguished personages in official life were present. During the pause, while refreshments were being served, a drum was beaten, giving the military signal to "assemble." The guests hurried to their seats and the emperor, who was much astonished, asked the conductor, Richard Strauss, why the signal was given. Strauss explained that it was the act of an insane person who was forcibly removed.

CAPTAIN HOBSON MADE A BIG HIT

Delivered a Fine Lecture on "America's Mighty Mission."

THE STORES WERE CLOSED

The Young Hero of the Merrimac Impressed Those Who Attended, and His Lecture Was Listened to With Deep Interest—Today's Program.

Friday was by far one of the most successful days of a successful Chautauqua ever held in Florida, the program lasting from 9 o'clock in the morning until half-past 10 o'clock at night, and every hour being full of interest, enjoyment and instruction.

Friday was "Hobson Day" at the Chautauqua, but this did not detract from the usual exercises which had been arranged formerly, and which proved not only enjoyable, but instructive and entertaining.

The morning session began at 9 o'clock, when the school of physical education was opened by Prof. A. Baker and Mrs. Adams of Chicago, which was followed by Mrs. Adams in an interesting and very instructive address. There were many things done and said by these clever people which will be well to remember, and which, if followed, will prove of great benefit to those present.

At 10 o'clock Prof. Brown gave his usual Biblical exposition, which was highly appreciated, and at 11 o'clock Miss Carolyn Geisel and an assistant of Battle Creek (Mich.) Sanitarium opened the school of health and cooking. The lecture was one of the most instructive ever heard in this section, and those present felt greatly benefited by the same, as it taught them a great many good things about cooking and preparing food in a healthful and appetizing manner.

At 3 o'clock in the afternoon Captain Richmond Pearson Hobson, the hero of the Merrimac and the Idol of the South, made his appearance. Captain Hobson was introduced by Congressman Frank Clark in a few brief and well-chosen remarks, Dr. Brown conferring this honor upon Congressman Clark on account of the latter's election to Congress from Alabama at the election last fall. Notwithstanding that the lecture appointed in the afternoon, a most inconvenient hour of the public, many of the stores and offices were closed, which afforded the employes an opportunity to be present. The result was that the big auditorium was well filled and those who heard the lecture were well pleased and felt highly benefited. The subject of the lecture was "America's Mighty Mission," and the matter was handled in a manner that proved highly enteresting and instructive. Captain Hobson is a man who has not only shown his worth as a naval officer, but has demonstrated his ability as an orator and statesman as well. His lecture in the evening was also a masterly effort and was heartily enjoyed.

The evening entertainment was opened at 7:45 o'clock by the Montauk Lady Quartette, followed by the lecture of Captain Hobson. It was at first announced that he could only remain in the city for the afternoon lecture, but his plans were so arranged later that he was enabled to remain over and deliver another of his interesting and instructive discourses, and the mention that he was to again appear in the evening was greeted with applause. At 9:15 o'clock there was another exhibition of the wonderful Vitagraph, with new marvelous moving pictures, and which dispersed the audience in a good humor.

At 9 o'clock this morning the school of physical education will again be opened, with an address by Mrs. Adams. It will be followed by the usual Biblical address by Prof. Brown at 10 o'clock, with the school of health and cooking. At 3 o'clock there will be a lecture on "Doubts and Doubters" by Dr. James Albert Patterson of Columbus, Ohio, followed by an organization of the Seton Indians' camp with Miss Grace Lampkin, head medicine woman, in charge. This camp promises a big thing and a big surprise before the end of the Chautauqua, as many "Indians" are expected from day to day to enlist in the cause of affording entertainment to the people.

The day's entertainment will consist of the moving pictures, and music by the Montauk Lady Quartette.

WILL SOON BE READY.

Phifer Bros.' Bank Will be Ready for Business in a Short Time.

In speaking of the proposed bank which is to be established by Phifer Bros., and of which there has been considerably said recently, one of those interested stated Friday that the furniture, etc., was ordered several weeks ago, and that the same was expected daily.

"There is no doubt but that we will be ready for business not later than April 1," he remarked, "and when we do open up we propose to begin business right, and with a proper and conservative system."

UNIVERSITY LOST OUT.

Were Defeated by Stetson Boys by a Score of 7 to 3.

DeLand, March 8.—In a beautifully played and scientific game today between the baseball teams of the University of Florida and Stetson University, the University was defeated by a score of seven to three.

The game was a pretty one from beginning to end, however, both sides making fine plays. The Stetson boys, however, got the better of their opponents, gradually making the winning scores.

Kirby Smith Meeting.

The regular business and historical meeting of Kirby Smith Chapter, United Daughters of the Confederacy, was held at the home of Mrs. Jas. M. Graham Thursday afternoon.

The meeting was well attended, and many interesting papers were read, at the conclusion of which Mrs. Graham served delicious refreshments of ice cream, cake and coffee. Mrs. Graham retained her reputation as a clever hostess, and many of her friends congratulated her upon the excellence of her refreshments.

On Tour of Inspection.

Major C. R. Layton, who is on the Adjutant-General's staff in the capacity of inspector-general of the First Brigade, Florida State Troops, has been detailed for duty to complete his inspection, and is now on a tour in fulfilment of this duty. He began at Orlando Thursday, and will visit all towns before returning. The towns and cities containing military companies which Major Layton must inspect are Orlando, Fort Myers, Tampa, St. Petersburg, Key West, Miami and Daytona.

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

NEWS OF CITY AND COUNTY CONDENSED

C. V. McKinstry of Alachua spent yesterday with relatives in this city yesterday.

T. J. Swearingen, the naval stores operator of Kanapaha, was transacting business in this city yesterday.

Mr. and Mrs. H. E. Taylor have returned from Jacksonville, where they have been on a brief but pleasant visit to friends.

Hereafter Dr. Armstrong, the well known eye specialist, will make regular professional visits to Gainesville the second Monday of each month.

W. L. Hill has returned from Micanopy, where he has been spending two or three days hunting and fishing as the guest of Dr. H. L. Montgomery. Dr. Montgomery declared yesterday that Mr. Hill was the most successful snipe hunter he had ever seen.

Thomas Mitchell, formerly of this city but now of Jacksonville, passed through the city yesterday en route to St. Petersburg, where he was called on account of the illness of his brother, Robert Mitchell. Robert, who is the younger of the two and also well known here, received an electric shock in St. Petersburg during the holidays, from which he has never recovered, and which may eventually cause his death. Friends regret very much to learn of his misfortune.

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which a judge of the efficiency of any article, and that is by its ability to do what it is intended to do. Others may look nice and smell nice, but the chief merit they can claim is that they eradicate Dandruff and stop Falling Hair.

So they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

That whereas, it is the desire of W. D. Dickinson, Tax Collector, that the time for the collection of taxes be extended to May 1, it is hereby ordered that the Comptroller be requested to extend the time, and to notify the Tax Collector of this county of such extension.

That under and by virtue of Chapter 5239, Acts of 1903, Laws of Florida, the County Commissioners assembled canvassed the returns of an election held on February 12, 1907, in Special Road District No. 10, to elect three road trustees and fix the amount of levy for road purposes in said District No 10 and that the result of said election was as follows:

J. N. Craig received 29 votes; J D Merry received 30 votes; M. J. Ward received 20 votes; J. L. Wolfenden received 12 votes.

That the vote to fix the amount of levy for road purposes for Special Road District No. 10 was as follows:

Maximum tax levy of five mills received 32 votes; minimum tax levy of three mills received three votes.

That the tax rolls for 1904-5 be received, and that same be ordered closed.

Whereupon the Board adjourned.

A Birthday Dinner.

Upon the occasion of his sixtieth birthday, Mrs. Jas. M. Graham tendered to the immediate family and a select number of intimate friends a fine dinner Thursday in honor of her husband.

The dining-room was tastefully decorated, and a feature of the dinner was a fine pound cake dedicated to Mr. Graham, which contained sixty wax candles, all burning, of various colors.

The dinner was in courses, but was served in family style, "to make everybody feel at home." The affair was one of the most enjoyable of its kind ever held in Gainesville, and at the conclusion everybody wished the clever host of the home many more birthdays as happy as this had been.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all druggists. 50c and $1.00. Trial bottle free.

THE CITY COUNCIL.

Adjourned Meeting Thursday Afternoon—Rock Crusher Leased.

The rock crusher has been leased to the street contractor who is putting in the pavements.

The price is $4 per day, but it's a good crusher and worth the money.

The contract is for four months.

The Council met in adjourned session Thursday afternoon, and finished up what business was left over from Monday night, including the passage of the ordinance on its third reading authorizing the City Council to issue city certificates for something like $2,500 to pay for the city's proportion of the pavement of sidewalks on East Main street S

The mayor was instructed to issue proclamation calling for city election.

That's about all there was to the meeting of the Council on this occasion.

Regarding the leasing of the rock crusher, Alderman Taylor presented a blank contract agreeing to lease same to O. W. Petree at a sum of $4 per day. Alderman Taylor asked that this contract be ratified. Alderman Hodges was not satisfied with this condition of affairs, however, as he could not see why the city crusher should be leased, when the city needed its services for street work, as he saw it. He stated that if the crusher was to be leased (and he saw and realized its destiny) that same be referred to a committee for investigation, said committee to report to Council.

Alderman Cushman was in favor of leasing, however, and made a motion that Alderman Taylor's suggestion at $4 per day be accepted. Dr. Hodges, the "lone man," was the only one who voted against the contract.

For Tax Assessor.

As will be seen by announcement elsewhere, City Tax Assessor W. M. Bradford announces the coming season for re-election to the office. This is a most responsible position, one which requires prompt and impartial service, and Mr. Bradford has come as near filling the bill as any official the city has had for many years. He is a man of advanced age, has accomplished a great deal for the city in political and other ways, and his election would be no more than right and proper to the best interests of the people.

Fell to Their Death.

Naples, March 8.—Two young sprotsmen, Arturo Kurnot and a comrade named d'Ovide, while on an excursion to Mount Saint Angelo on Monday, slipped and fell to the bottom of the mountain. Both were killed. Half a dozen gay companions witnessed their awful death.

No Coat For Nineteen Years.

During the journey from Victoria falls to Kimberley a big, sun browned man boarded the Zambezi express minus his coat, with his shirt sleeves rolled up. He took a seat at dinner, and the chief steward remarked to him that as there were ladies present perhaps he would have no objection to putting on his coat. "Great Scott," the man replied, "I haven't worn a coat for nineteen years. You will have to wait, my friend, until I can buy one at Kimberley."—South African Railway Magazine.

NEW FUNERAL REGULATIONS.

The Ministers of the City Want to Change the Present Customs.

Atlanta, March 8.—At a meeting of the Evangelical Ministers' Association a funeral reform was inaugurated, and all pastors of this city were requested to read the resolutions passed at the session to their congregations and make such comments as they deem advisable. The resolutions passed at the meeting are to the effect that funeral orations should be dispensed with; to stop Sunday funerals; that the wearing of mourning should be discouraged; and lastly expresses disapprobation of the custom of men taking off hats at burials.

The resolutions read as follows:

Resolution 1.—That funeral sermons and orations should be dispensed with.

Resolution 2—That the association protest against the custom of conducting funeral services on the Lord's day, except in cases of necessity.

Resolution 3.—That when necessity requires funerals on the Lord's day, they shall not be held during church service hours.

Resolution 4—That the custom of wearing mourning be discouraged on the ground of health and expense.

Resolution 5.—That the association disapproves the practice of ministers and pallbearers removing their hats at burials.

Coin Spilled from Wagon.

Chicago, March 8.—A dispatch to the Tribune from San Francisco says that one thousand persons fought and scrambled for possession of 3,000 of Uncle Sam's dollars that were spilled from a sub-treasury wagon which broke down at Commercial and Kearney streets. A heavy guard of soldiers accompanying three wagons of coin on their way to Presidio to pay off the officers and men formed a cordon around the scattered silver and with drawn bayonets drove off the crowd. All the coin was recovered from the mud and slush except $32. For this a big crowd hunted during the remainder of the afternoon and only found $30 of it before nightfall.

B. Burhans Testifies After Four Years

G. B. Burhans, of Carlisle Center, N. A regiment of Chilean soldiers will also participate and will pay honors to the Italian minister and sailors.

Salvage Work Possible.

Yokohama, March 8.—Representatives of the underwriters' board who Thursday again visited the scene of the wreck of the Great Northern company's steamer Dakota, which ran ashore in the bay of Tokio, March 3, report that salvage work is possible if time, weather and wrecking apparatus are adequate, but the fear is expresse dthat the remoteness preclude. There will be another and closer survey made.

Napoleon and the Letter M.

Marboeuf was the first to recognize the genius of Napoleon at the Ecole Militaire. Marengo was the greatest battle gained by Bonaparte, and Melas opened to him the way to Italy. Mortier was one of his first generals, Moreau betrayed him, and Murat was the first martyr to his cause. Maria Louise partook of his highest destinies, Moscow was the abyss in which he was engulfed, Metternich conquered him on the field of diplomacy. Six marshals—Massena, Mortier, Marmount, MacDonald, Murat and Moncey—and twenty-six of his generals of divisions had names beginning with the letter M. M. Murat, duke of Bassino, was the counselor in whom he placed the greatest confidence. His first great battle was that of Montenotte; his last was that of Mount St. Jean. He gained the battles of Moscow, Montmirail and Montereau. Then came the assault of Montmartre. Milan was the first enemies' capital and Moscow the last in which he entered. He lost Egypt through the blunders of Menoa and employed Miollis to make Pius VIII. prisoner. Malet conspired against him; afterward Marmont. His ministers were Maret, Montalivet and Mollien. His first chamberlain was Montesquieu, his last sojourn Malmaison. He gave himself up to Captain Maitland. He had for his companion at St. Helena Montholon and for valet Marchand.

A Crimean Incident.

Many are the deeds of heroism recorded in Sir Evelyn Wood's story of his rise "From Midshipman to Field Marshal," but none more thrilling than an incident of the fighting in the Crimea.

"Look out! 'Whistling Dick!'" was the warning that was shouted one day, and at the call, which referred to a certain huge mortar which had been shelling them, every one in hearing rushed for shelter. All succeeded in gaining the trenches except young Blewitt of H. M. S. Queen. Him the spent shell caught under the knees and pinned to the ground.

"Stephen, Stephen," he called to Stephen Welch, "do not leave me to die!"

The fuse of the thirteen inch shell was hissing, but Welch did not hesitate a second.

"Come on, lads! Let's try!" he shouted and, leaping from the trench, began tugging with all his strength at the big mass of iron. At that instant it burst, and of neither man was a fragment seen again.

Street Cars In Brazil.

"There are first and second class street cars," writes a tourist, describing his South American travels, "and I, with a package in my arms, had taken a first class bond, as a street car is called in Rio de Janeiro. Scarcely had I done so when the conductor requested me to transfer to a second class car whenever it might come along, because no one is allowed to carry anything greater than a lap satchel first class. So I humbly descended and had either to mix with market women and sweaty laborers or to take a tilbury. A person without a necktie is no more allowed first class on the street cars than was I with my parcel. They are decidedly particular in Brazil and inherit many fastidious ways from the time of the empire, when dress and manners were the mark separating the aristocracy from the working classes."

To Find the Horsepower.

A rule for finding horsepower of a pulley is to multiply the circumference of the pulley in feet by the revolutions per minute, and the product thus obtained by the width of the belt in inches, and divide the result by 600. The quotient will be the horsepower which the pulley is capable of transmitting. This rule is founded on the fact that good, ordinary single leather belting, with a tension of fifty-five pounds per inch wide, will require fifty square feet of belt surface passing over the pulley per minute for one horsepower. Fifty square feet per minute are equal to a belt one inch wide running 600 feet per minute.

A Prerogative of the Pulpit.

Dr. Bacon, a New England clergyman of long ago, was reproached by a friend with some pronunciation which was not "according to Webster." Webster lived in his parish, and the doughty old divine was not disposed to be snubbed with the dictionary. "What right has Webster to dictate my pronunciation?" he demanded haughtily. "He is one of my parishioners and ought to get his pronunciation from me and not I from him."

POINTED PARAGRAPHS.

No man ever landed a particularly easy position by trying to dodge work.

Almost every man imagines he would do a lot of philanthropic stunts if he had the money.

Why is it that the people with nothing to do but sit around and visit are such dreadful bores?

Some people imagine that by being impudent they are showing others they are "as good as anybody."

When a father and son are in business the son can usually tell of a lot of mistakes his father makes.

Almost any married man can make his friends smile by saying he is perfectly free to do as he pleases.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

A man of strong prejudice and unforgiving disposition is unfit to hold public office; and when they aspire to such they generally get it "where the chicken got the axe."

To one engaged in business it is vital to know as much as possible of the disposition and ability of the customers to meet their obligations, since the percentage of "desperate" notes and accounts must be reckoned at the stock-taking period at the end of the year if the proprietor would know his actual financial standing. There will always exist the need for this caution so long as human nature continues to be—human nature.

John R. Willis, candidate for the State Senate from Levy county, has "flunked" in reference to a compulsory poll tax law and now announces that he will oppose the enactment of such a law. The Sun was of the opinion that Mr. Willis had made an error in advocating such a law and is glad to note that the scales have been removed from his eyes. The enforcement of a compulsory poll tax law would result in more than one county in the State going Republican.

The Live Oak Democrat does not favorably consider Major Bell's scheme to establish a home for old soldiers of both armies. The Democrat thinks the veterans would find it impossible to dwell together in peace, but from personal observation we are of the opinion that The Democrat is mistaken. Only old veterans who had seen actual service would be admitted to such a home, and the "fire eaters," those who only fought with their mouth, would be excluded.

The Jacksonville Times-Union says: "Thomas A. Edison, the great inventor, has arrived in Fort Myers with his family, brother-in-law and servants, to spend March at his winter home. That Mr. Edison should be unwilling to allow his visit to Florida to interfere with his experiments is a matter of course, so it is no surprise to learn that his big laboratory at Fort Myers was put into first-class shape before his arrival. The batteries of his new launch, Reliance, which is fitted out with the latest Edison storage batteries, are charged each morning for a seventy-five mile run. The distinguished inventer is in excellent health. A brain so active may well defy time and disease."

HOW SHALL IT BE DONE.

Referring to the good roads bill which Representative MacWilliams of St. Johns county will endeavor to pass at the coming session of the Legislature, The St. Augustine Record says:

"When the MacWilliams bill has made it possible for us to have two grand trunk highways from Pensacola to Miami and from Jacksonville to Tampa, how shall this great cross be constructed? So far as the public is instructed at present, the details are all missing, and when The Times-Union quotes the New York law for these details, it is very far from providing them for Florida. Is it not well to let the people into the secrets, as a preparation for gaining their support?

"Who is to mark out the line from Pensacola to Miami, and from Jacksonville to Tampa? In a country like ours, we think a straight line should be followed, after the Roman model. We have no mountains to tunnel, and the swamps are not swamps, in any proper meaning of the word, since nothing makes them different except the presence of water in sufficient quantity to prove a nuisance. Now, having given authority and the route selected, what is the material? Here is the greatest test of ability. The road should be equally good and durable in all its parts, but the material should vary to accommodate itself to the demands of location and transportation. There are many good materials for road-building in the State, and those at hand should be used as far as possible. To bring stone from other States to make a macadam bed is folly, unless we have no other material equally good. Here is where common sense must join hands with the science of engineering, and where the value of the man is to be tested. It is above all to be hoped that the State officials to whom direction is given be something better than mere politicians who will return support for favors received and waste the public money by giving us a pretense of a road.

"It is to be presumed that the details have been carefully studied, and some members of the Legislature should have an eye towards an engineer of recognized standing and the requisite experience. Unless the mantle of authority fall on the right man, the cause of good roads will be hindered rather than advanced by legislative action at the present time."

RELIGION AND POLITICS.

During his recent address to the Legislature of the State of Washington, Mr. Bryan said:

"I am in politics almost as badly mixed as I am in religion. In religion I could not place much emphasis upon church creeds, even if I wanted to. I remember hearing a Southern Methodist preacher tell when I was a boy of a mill to which many people brought wheat. He said that some came from the hill and some along the river route but that when they reached the mill, the miller did not ask them which road they came by, but whether the wheat was good. I have thought of this story a good many times, and it often applies to politics. When I first went to Washington as a Congressman I had an idea that all virtue was to be found in the Democratic party and that all vice was to be found in the Republican party; but after I had been in Congress awhile, I found that there were some bad Democrats and that there were many good Republicans, and this made me a little more charitable in my opinions. When I became a candidate for the Presidency some of the Democrats left me and some of the Republicans came to my support, and after careful consideration I made up my mind that I would rather look a Republican in the face than a Democrat in the back."

Fortune gives many too much, but no one enough.—Laberius.

A PRETTY PREDICAMENT.

The Florida editors in these piping times of prosperity find themselves in a pretty predicament.

If they oppose Governor Broward's drainage scheme, they are charged with being in the pay of the railroads. If they advocate it, as Claude L'Engle and others are doing, they are accused of being paid by the Board of Internal Improvement.

If they favor the present lease system, they are in the pay of the lessees; if they oppose it, they are hired by the enemies of the lessees.

If they advocate for office a man of money, it is his money that moves them; if they support a poor man, they are a lot of lunatics with no business sense in them.

Thus we poor editors are between the devil and the deep blue sea, and there is nothing left that we can do with an easy conscience except advocate the planting of sweet potatoes and the setting of Plymouth hens.—Punta Gorda Herald.

Farmers as a rule are kind-hearted and sympathetic and abuse of the beasts of burden is something rarely witnessed in the country. In the cities are often seen horses, after being driven, tied to a post, exposed to wintry winds and cruelly neglected. Societies exist for the prevention of cruelty to animals in one form or another, and the duty of the village marshal is to house and care for neglected animals.

Was Shot on Rabbit Hunt.

Dublin, Ga., March 8.—Carl Watkins was seriously hurt from an accidental gun shot wound. A companion shot at a rabbit, and the shots struck Watkins in the left leg below the knee cap, and tore a big hole through the calf of the right leg. Blood poison is feared, as considerable clothing and gun wadding was carried into the wound.

THE TONSILS.

It Is Not Known What Purpose These Structures Serve.

The tonsils are two collections of glandlike structures at the back part of the mouth, one on each side, between the pillars of the palate. It is not known what purpose they serve. Some have supposed that they arrest the germs of disease which may be inhaled or taken in with the food, but they evidently can catch very few of the germs which rapidly pass them in the food or water or in the air which is inhaled, and it is well they cannot, for they are themselves very susceptible to disease, as some sufferers know to their sorrow. Others have thought they serve an evil purpose, acting as portals of entry for many disease germs into the body.

The tonsils are very liable to become inflamed. This condition constitutes tonsilitis, or, when an abscess forms, quinsy. Young persons, over fifteen and under thirty, are most subject to inflammation of the tonsils, although children and even those well along in life may suffer. It occurs with special frequency in those whose tonsils are enlarged and usually in persons who are "run down" in general health or in whom the power of resistance has been lowered as a result of worry or overexertion.

The extra study in preparing for a difficult examination in school or college and the anxiety concerning the result not uncommonly bring on an attack of quinsy, especially in those of a so called rheumatic tendency.

There are various kinds of tonsilitis, but the symptoms of all are quite similar in the beginning. The patient feels ill, has chilly sensations, loss of appetite, more or less headache perhaps, constipation, feverishness and a feeling of discomfort or actual pain in the throat. Soon the fever becomes high, the throat is dry, swallowing is painful, there is often more or less earache, and the patient seems seriously ill.

Suppuration may or may not occur. The pain and throbbing are most severe when it does.

The attack lasts usually from two or three days to a week and is apt to terminate quite suddenly, although if but one tonsil has been affected recovery may be delayed by an extension of the inflammation to the other tonsil. In any case the whole tiresome process must be gone through with again.

The disease is almost always serious enough to require the physician's care, and the treatment calls for internal remedies as well as local applications. Whatever else is done, the bowels should be kept open from the beginning of the attack.—Youth's Companion.

POINTED PARAGRAPHS.

A just complaint is an accommodation.

Talk happiness. People get tired of hearing of your woes.

The things you don't say cause you less grief in this life than almost anything else.

Never think how foolish it is to bear a grudge? Unkind feelings have no market value.

If you spend your time in growling about an imaginary wrong, you are sure to neglect your own shortcomings.

Every child is doomed to disappointment. All children imagine that as soon as they are twenty-one they will do as they please."

State your views on any subject, and if your listener says he hasn't made up his mind it means he disagrees with you and hates to say so.—Atchison Globe.

An Expensive Short Cut.

It will certainly be news to most people, says the London Globe, that New York is a short cut for telegrams between London and Paris and between London and Berlin. However, the fact is vouched for. The messages are received at an agreed address in New York and are immediately passed on for London, Paris or Berlin, as the case may be. The reason for this amazing roundabout to save time is curious. New York time being about six hours behind European time, its wire connections with Europe are almost unoccupied during the London forenoon, while during the same time European wires are often congested. Via New York, therefore, is a "short cut," but an expensive one.

Forgiveness.

Nothing is more moving to man than the spectacle of reconciliation. Our weaknesses are thus indemnified and are not too costly, being the price we pay for the hour of forgiveness, and the archangel, who has never felt anger, has reason to envy the man who subdues it. When thou forgivest, the man who has pierced thy heart stands to thee in the relation of the sea worm that perforates the shell of the mussel, which straightway closes the wound with a pearl.—Jean Paul Richter.

Ears of Animals.

The ears of tigers, foxes, wolves, cats and other beasts of prey bend forward, while the ears of animals of flight, such as hares, rabbits, deer, etc., bend backward. This is because the ears of beasts of prey are designed for the purpose of collecting sounds in the direction taken by the animal in pursuit of its prey. The ears of an animal of flight, by turning backward, enable it to hear the sounds made by a pursuer.

Alice Roosevelt's Wedding

Was something to be recorded in the annals of history. Herbine has been acknowledged the greatest of liver regulators. A positive cure for bilious headaches, constipation, chills and fever, and all liver complaints. J. C. Smith, Little Rock, Ark., writes: "Herbine is the greatest liver medicine known. Have used it for years. It does the work." Sold by W. M. Johnson.

NOTICE OF ELECTION.

Under and by virtue of the power and authority vested in me by virtue of my office as Mayor of the City of Gainesville, Florida, I, W. R. Will Visit State Capitol.

New York, March 8.—Robert Lynn Cox, secretary for the newly formed association of life insurance presidents, started Wednesday on a trip to the capitals of several states to appear before the insurance commissions and their legislatures in connection with pending legislation. Mr. Cox will visit, among other states, Missouri, Arkansas, Texas and Tennessee. He is a former member of the New York assembly and was on the Armstrong committee which investigated insurance conditions in this state a year ago. Investment regulations and tax burdens are two of the subjects to which the present trip of Mr. Cox relates.

Run Over by Wagon.

Chicago, March 8.—A dispatch to the Record-Herald from Hot Springs, Ark., says that Mrs. R. H. Thaw, of Sisterville, Va., second cousin of Harry K. Thaw, was run over on Central avenue by a team and wagon driven by a man named Snyder. Mrs. Thaw was taken to a hospital and is in an extremely serious condition. After the ocurrence there was great excitement among the people who had witnessed it. They believed that the accident could have been avoided by the driver and his attempt to escape incensed them more. There was much talk of lynching but there has been no move in that direction thus far.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all drug stores. Price 50c.

Will Soon Be Finished.

Rome, March 8.—According to Signor Tadolini, the sculptor, of the monument of Pope Leo XIII, for the Basilica of St. John Lateran, will be finished in ten days. The body of the late pontiff, he thinks, will be removed after Easter. The monument represents the pope giving a blessing. His statue is flanked by figures representing the church mourning and kneeling workmen imploring a blessing.

Clears the Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. W. McCollum & Co.

Woman Aged 140, Dead.

Valparaiso, Chile, March 8.—The death of an Indian woman who was reported to be 140 years old has occurred at Osorno.

A careful wife will always keep supplied with BALLARD'S SNOW LINIMENT

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional indorsement of each of its several ingredients—worth more than any number of ordinary non-professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It *will* often *prevent* them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent *free* on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

Boy Fatally Burned.

Waycross, Ga., March 8.—Homer Curry, a 12-year-old boy, was probably fatally burned by the explosion of the gasoline tank back of the Herald office. The boy was filling a small tank from a large drum gasoline tank when a match lighted causing the explosion. Another boy was playing with the Curry boy, and each accuses the other of lighting a match. The boy's clothing caught on fire and he started to run but was thrown down by some men and covered with sand. His clothing was torn from him, his body being badly burned from head to his waist.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Lagrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.

Four Men Are Sent to Atlanta.

Montgomery, Ala., March 8.—Four culprits under the escort of the U. S. marshal, left Montgomery for the United States penitentiary at Atlanta Ga., They are J. L. Robinson, accused of mail robbery, sentenced for one year and one day; John Shorter, convicted of counterfeiting money, three years; H. A. Wellbor, convicted of shooting at a United States officer, five years; Monroe Wright, who plead guilty of postoffice robbery, one year and one day.

And remember the next time you suffer from pain—caused by damp weather—when your head nearly bursts from neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of Hempstead, Texas, writes: "I have used your liniment. Previous to using it I was a great sufferer from rheumatism and neuralgia. I am pleased to say that now I am free from these complaints. I am sure I owe this to your liniment." Sold by W. M. Johnson.

There is promised for Gainesville on the afternoon of Friday, March 15, at 3 o'clock, an exhibition of rare marksmanship, this exhibition being given free to the public. The participants will be Prof. and Mrs. Ad Topperwein of San Antonia, Texas, the world's champions, and Prof. J. Mowell Hawkins of Baltimore, Md., who is also a fine shot. Further particulars will be given later.

Among the first-class specialacts which comprise the olio of Gorton's Minstrels is the comedy and dancing specially of Welby, Pearl and Fell. Jake Welby's negro comedy has long been noted for its originality and excellence, and forms a conspicuous part of the sketch, while C. C. Pearl contributes a marvelous dancing performance. They will appear with Gorton's Minstrels at the opera house tonight.

Perhaps no system of treatment for the relieving of human ills has made as great headway as that practiced by Dr. E. H. Armstrong, the Eye and Nerve Specialist of Jacksonville. Many cases in this locality which had been given up as incurable have been cured permanently by this drugless system or treatment. If you have any chronic disease or eye trouble, the opportunity should not be missed of consulting Dr. Armstrong on his next professional visit to our city, March 11. He may be seen in person at the Brown House.
